

Adoption Fees:

Puppies have a higher adoption fee due to the costs of their veterinary care. We give all of our puppies their FULL SERIES of vaccinations (all pups over 4 months receive rabies vaccination also), spay/neuter, microchip and registration. The fees are as followed: Puppies under 6 months old: \$250.00; puppies 6 months to 1 year: \$150.00; Dogs 1-3 years: \$125.00; Dogs 3-9 years: \$95.00; Senior dogs over 9 years of age: \$55.00. Cats under 5 years old (including kittens): \$55.00; Cats 5-10 years old: \$40.00; Cats over 10 years old: \$25.00. All cats have been spayed/neutered, fully vaccinated and FelLeuk tested. Rabbits are \$25.00 (includes spay/neuter).

All of our pets currently reside in individual foster homes where they learn basic housetraining, socializing with other pets and people, lots of love and lots of exercise. We train all of our puppies and dogs to walk on an Easy Walk harness, and upon adoption we will send each dog home with one for an additional \$20.00 if the new adopter does not already have one. We have trainers on staff that will help train, socialize, and work with any new adopter at no cost to the family if so desired or needed. We want our pets placed into fabulous homes that will use kindness and love in their training and not negative training (such as punishments for doing bad) but homes that will emphasize the positive: praise for doing well.

When you adopt from the CCSPCA you agree to not use negative training devices such as choke chains, prong collars, bark collars, or any other "punishment device" that has found to be cruel, and not necessary in helping a dog become a happy new addition to your home and life.
